SCHOOL CAMP

In week six the Year Five and Six students went to Bickley Outdoor Recreation Camp for their school camp. The students participated in a large range of fun and challenging activities, like crate climbing, rock climbing, flying fox, raft making, vertical challenges, team building, hut building, search and rescue, orienteering and canoeing. Whilst we were at camp, the students got to eat lots of yummy food. For afternoon and morning tea we usually had a biscuit and a fruit and for breakfast we had an option of bacon, eggs, toast, spaghetti, pancakes, cereals, yoghurts and/or fruits. For lunch we had burgers and pizza. For dinner on Tuesday night we had chicken, vegetables and bread. For dinner on Wednesday night we had roast beef with roast pumpkin, potatoes, sweet potatoes, vegetables and bread. For dinner on Thursday night we had a Mexican night with burritos and/or tacos. We got to eat heaps of yummy desserts! We slept in comfortable bunk beds in dormitories and each dormitory had their own bathrooms and showers. We stayed there for 3 nights and 4 days. The whole time we were there we had a great time with lovely instructors and we loved the amazing, beautiful environment. We very much enjoyed our time at camp!

RELIGION
This term in Religion we have learnt many different things. We have learnt about choices, communities, leadership and lollipop moments. We learnt that to make good choices you need to stop and think about your actions. You must have a positive attitude. When we learnt about leadership, we discovered that to be a good leader you need to be loyal, kind, caring and grateful. But not even a good leader shows all these qualities. Being a leader is hard but rewarding. If you are a good leader you learn to recognise lollipop moments. Lollipop moments are when you do something for someone and they thank you for it. For example, if you told someone they could play with you if they wanted to and after you had finished playing they said “thanks for letting me play with you, it has made my day”, that is a lollipop moment. You can also give lollipop moments when you say thank you for something someone has done for you. The Year Fives all agree what we have learnt in Religion has helped us in the playground and at home.

LITERACY
Throughout the term the Year Fives have been learning about poetry. We have learnt about cinquain poems, portrait poems and adverb poems. We had to write our own poems. One example of a portrait poem is an ‘I am’ poem. We looked at some examples of poems on Google Classroom. When we had finished our poems, we hung them up around our classroom.

In writing the Year Fives have been learning about recounts. We learnt that to tell a good recount it must be accurate and have a good structure. When we got back from camp we wrote a recount about our time there. We also learnt what adverbs, adjectives, verbs, nouns, pronouns, proper nouns, prepositions, definite articles and conjunctions are.
In literacy this term we are in 4 groups, The T-Rex's, The Potato Heads, The Woody's and The Buzzlightyears. We do different rotations including BTN, Guided Reading and Comprehension Detective. The book we have been reading in class is called 'Specky Magee' by Felice Arena and Gary Lyon. Every day we do different spelling activities for 10 minutes. On Monday we write sound pyramids, Tuesday we partner test and on Wednesday we do LSCWC (look, say, cover, write, check). On Thursday we write sentences with our words and lastly, Friday is when we do testing.

YEAR FIVE ASSEMBLY

In week five the Year Five class had their assembly. The assembly was based on the Olympics. The students all performed Olympic events which included show jumping, hockey, the 100 metre sprint, boxing, rhythmic gymnastics and synchronised swimming. The assembly was very informative and entertaining. I would like to thank all the students for their involvement and dedication to the performance!

MATHEMATICS

This term the Year Fives have been learning about multiplication, mapping, 24 hour time and timetables. We have been trying to perfect our times tables. We are also learning about mapping. In mapping we have learnt about scale. Scale is a way of showing how big something is in real life on paper. We are currently learning about timetables. The Year Fives are working on a brochure for a bus route around Pinjarra.
